SOLAR COLLECTOR FOR SWIMMING POOL TEMPERATURE

CHARACTERISTICS

- **Warranty:** 15 years.
- **Useful lifetime:** 6 - 7 years
- **Pool Heater Material:** EPDM - Ethylene Propylene Diene Monomer, ABS Acrylonitrile-Butadiene-Styrene
- **Major Energy Production Specific**
- **There is no risk of overheating of the pool.**
- **It has large area of solar energy absorption.**
- **Pigmentado resistant to ultra violet rays.**
- **Lightweight, flexible, easy to demonstrate and install.**
- **Project to work with high flows.**
- **High resistance to pressure (Up to 0.2 Bar=2.90 PSI).**
- **Zero maintenance.**
